Mast Farm Service is a family owned business started in 1985. We started as a farm service and repair shop. The business is located in eastern Ohio in the heart of Amish Country. We give credit to God and our dedicated employees for the success of the business. We strive to provide a quality product at a competitive price to our loyal dealers. Our friendly and experienced sales staff will help you select the best product for your customer's application. With our large inventory we can provide you with a fast turn around for your attachment needs.

Our plant is an Ohio Workers Compensation recognized SHARP (Safety Health Awareness Recognition Program) facility where our employees practice a culture of quality as a standard and safety as a priority. Call today for all your attachment needs.

BUCKET ACCESSORIES

BOLT ON EDGES

Bolt on cutting edges can be added to any standard bucket. The holes in the weld on cutting edge need to be drilled, therefore we would need to make a custom bucket.

5/8" x 74" - 6" hole spacing for 5/8" bolts

3/4" x 84" - 8" hole spacing for 3/4" bolts

3/4" x 96" - 8" hole spacing for 3/4" bolts

BOLT ON TOOTHBARS

Our bolt on tooth bar slides over cutting edge and bolts to the side of your bucket.

Teeth are spaced 10" center to center.

Standard Toothbar - 1" teeth

Heavy Duty Toothbar - 1 1/2" teeth

WELD ON TEETH

We offer two different sizes of weld on teeth that can be added to any standard bucket.

1 1/2" heavy duty teeth for large buckets

1" standard duty teeth for small buckets

24 hour lead time to add to stock bucket

We also offer D-rings, chain hooks, and weld on loops that you can add to customize your attachment.

See price pages at the end of this section for current list prices.
